Andrea Fazio

FULL STACK DEVELOPER

WORK EXPERIENCE

Fullstack Developer

The Level Group | September 2021 - present

I am responsible for the management and development of e-commerce in the fashion and luxury industry using Salesforce Commerce Cloud.
I contributed to the creation of LN-CC 's site using Salesforce Commerce Cloud (SFCC) and a Progressive Web App (PWA) architecture. I am currently working on the completion of Fabiana Filippi i's site and have been actively involved in Furla's project.
I am inclined to develop on both frontend and backend side with different programming languages, libraries and frameworks such as: **Javascript, React, Redux, JQuery, Laravel and Node**.

Allievo Caposettore

Leroy Merlin| September 2019 - September 2020

Management of departmental resources (e.g., schedules and range/commercial implementations) to achieve goals; ranking progress in business strategy planning (analysis of new products, reuse of materials, optimal inventory management, and increased visibility).
Co-construction of store strategy in collaboration with other locations; reshaping sales organization and strategy as a result of Covid-19.

FORMAZIONE

Junior Web Developer

Boolean Careers | January 2021 - July 2021

In this experience, I made inspiring projects inspired by famous Web sites and applications, such as: Netflix, Whatsapp Web, Spotify Web and many others. The final project represents a simulation of developing a site by being part of a team chosen by PM, mainly I was in charge of the backend part and building the advanced search with interactive map insertion with TomTom API. Find the BoolB&b project here.

Bachelor's Degree in Industrial Engineering

Università di Catania| October 2013 - Decembre 2018

Topics covered: electrical engineering; mechanics applied to machines; construction science; thermodynamics; heat transfer; machines and energy systems.
Dissertation writing titled "Automotive transmission and its evolutions" For references see this link

PANORAMICA

My passion for web development and desire to stay abreast of the latest technological advances have driven me to maintain a proactive approach to learning. I am a pragmatic and hands-on programmer, constantly seeking effective solutions to the technical challenges I encounter.

Recently, I have spent the last month developing my personal website, fazioandrea.me

SOFT SKILLS

- Leadership
- Collaborative
- Proactive
- Goal orientation
- Decision making
